

Jackie Terrell

For
AGRC Treasurer

Jackie Terrell

My name is **Jackie Terrell** and I am running for **AGRC Treasurer**. I have lived here since 2010 and was active in the creation of AGRC. I opened its first bank account when the previous Treasurer, Corrine Andrews, and I got worried about keeping what little money we had in our sock drawer.

My financial experience includes 5 years as the On-Site Manager of a Public Storage facility of 1,400 units that generated between \$75 and \$80 thousand dollars *per month*. Because I was the only African-American manager within the then-New-York-to-Detroit district, my accounts were audited constantly. Without exception, during my 5 years, the audit of my accounts was accurate *to the penny*, literally. I have the demonstrated experience and skill to handle the AGRC accounts.

I am running for Treasurer because I am concerned about the lack of transparency. We are unable to determine the accuracy of the current Treasurer's handwritten reports. Recently, a long-overdue audit was finally conducted and the Treasurer, *not the Audit Committee chairperson*, reported the findings verbally. There was no supporting information from the Audit Committee, whose credentials were never shared with the membership.

I recently distributed a detailed discussion of what specific problems I see and how I propose to correct them. Thank you for taking the time to consider the material I have shared. I ask for your vote as Treasurer so I can resolve these serious shortcomings.
